Bintaro, South Tangerang

SUMMARY

Computer Science graduate with a double degree from the University of Indonesia and Asia e University. Proficient in Java, JavaScript, PHP, Python, HTML, CSS, and experienced with both SQL and NoSQL databases. Skilled in modern frameworks and tools such as Laravel, Node.js, React, Tailwind CSS, Docker, and Filament. Strong background in full stack web development, including API integration, responsive design, and scalable software solutions. Passionate about building impactful technology, collaborating on technical projects, and continuously learning to tackle new challenges.

WORK EXPERIENCE**Backend Developer**

December 2024 - Present

VnC Studio - South Jakarta

- Designed and implemented efficient backend systems to support web applications.
- Collaborated closely with frontend developers and clients to deliver seamless user experiences.
- Optimized database structures and queries, ensuring high performance and scalability.

Full Stack Web Developer

MTs Assa'adah - East Jakarta

January 2025 - Apr 2025

- Developed and maintained user-friendly web applications using modern technologies.
- Optimized backend operations through efficient database management and API integration, significantly reducing system errors.
- Collaborated with MTs Assa'adah to design solutions that improved user engagement by up to 85%.

Software Developer

Shasha Printing - South Jakarta

Jun 2023 - Oct 2023

- Developed a cashier and inventory management system using PHP Native, integrating a SQL database for efficient data storage and financial reporting.
- Implemented a money report feature, improving revenue tracking and expense management by 95%.
- Enhanced operational efficiency, reducing manual data entry by 100% through automated processes.

Web Developer

Greyfurt Tour - South Jakarta

Jun 2023 - Oct 2023

- Developed and tested front-end features using HTML, CSS, JavaScript, and Bootstrap, improving website usability and customer engagement.
- Collaborated with stakeholders to update content and features, ensuring the website aligned with the latest trends and customer feedback.
- Achieved a 15% increase in website traffic by optimizing design and performance based on customer insights.

AI Community Surfer

TELUS International AI Data Solutions - Remote

Apr 2023 - Jun 2023

- Evaluated the accuracy and relevance of search results to improve AI and machine learning models.
- Provided critical feedback on search results, enhancing the quality of webpages displayed for specific queries.
- Reviewed pages to ensure they matched search criteria, increasing overall search efficiency by 15%.

EDUCATION

Bachelor of Information and Communication Technology

Asia e University (AeU) - Malaysia

Sep 2021 - Sep 2025 (Expected) | GPA: 3.53/4.00

- Organized social responsibility projects, fostering community engagement and service.
- Expected to graduate in the top 10% of the class.

Associate of Software Engineering

CEP CCIT Universitas Indonesia - Depok

Sep 2021 - Aug 2023 | GPA: 3.30/4.00

- Active member of Komunitas Android (Komandro), contributing to community projects and events.
- Recognized as one of the top 50 graduate students from the program.

ORGANIZATIONAL EXPERIENCE

Member, Android Community (Komandro)

University of Indonesia

Apr 2021 - Apr 2022

- Participated in workshops and projects to enhance skills in Android and web development.
- Focused on UI/UX design principles to create user-friendly applications, contributing to 5 projects.

Member, Google Developer Student Clubs (DSC)

University of Indonesia

Apr 2021 - Apr 2022

- Attended technical workshops on emerging technologies, including Android development, web development, and machine learning.
- Acquired skills in cloud computing, enhancing technical versatility and understanding of integrated systems.

Chairperson, Scout Organization

High School Level - South Jakarta

Jan 2019 - Jan 2020

- Led a team to organize events at the sub-district level, ensuring effective execution and community engagement.
- Partnered with local organizations to drive participation, achieving 55% growth in community involvement.

TECHNICAL SKILLS

- **Programming Languages:** Java, JavaScript, PHP, Python, HTML, CSS
 - **Frameworks & Tools:** Laravel, Node.js, React, Tailwind CSS, Bootstrap, Filament, Docker, MySQL, MongoDB, phpMyAdmin, Postman
 - **Web Development:** Full-stack development, API integration, responsive design, web deployment
 - **Software Development:** Database management (SQL & NoSQL), scalable solutions, RESTful API development
 - **Soft Skills:** Problem-solving, teamwork, project management, communication
-

CERTIFICATIONS

- TOEFL Certification [Certificate 1](#) (2023)
- Information Technology Certification [Certificate 2](#) (2023)
- Developing Microsoft Azure and Web Services (2023)
- Designing Database Solutions for Microsoft SQL Server (2023)
